Subject: Acquisition Announcement

We are pleased to announce that Ligon Industries LLC has acquired AccuForm Precision LLC, a highly regarded CNC machine shop known for its expertise in machining high-value, complex, multi-sided castings.

AccuForm Precision LLC is recognized for its creativity and innovation in fixture design and tool development, allowing them to machine intricate geometries, thin sections, and tight tolerances that are critical to quality and beyond the capabilities of many manufacturing companies. These specialized capabilities align exceptionally well with V-process castings, further strengthening our ability to serve customers with high-precision machining solutions.

As part of this acquisition, AccuForm Precision LLC will be incorporated into Ligon's V-Process Aluminum Foundry Group as a separate entity, continuing its tradition of excellence while expanding opportunities for collaboration and growth.

We look forward to the integration of AccuForm Precision LLC into our organization and the enhanced value this partnership will bring to our customers, employees, and stakeholders.

Please join us in welcoming AccuForm Precision LLC to the Ligon Industries family.

Sincerely,

Stephanie Thompson
Sales and Marketing Manager
Harmony Castings, LLC.
